Reay supply and install gas and water pipelines including ancillary infrastructure; de-watering pump and pipeline systems, supply & operation of trenching machines, terrain levellers/surface miners and other heavy mobile equipment, plant and personnel. Our tracked trenchers save time and money in construction of wind and solar farms.

Summary

Reay Services Group (RSG) is recognized in the mining, gas, water and mineral processing industries as the contractor of choice for the installation of pipelines, ancillary equipment, sewage infrastructure and the hire of trenching, surface miners and excavation equipment across Australasia.

RSG's Road Construction division focuses on the establishment of sealed and un-sealed roads for the Coal

Seam Gas Industry.

Our company has workshop and office facilities in Queensland, Victoria and Northern Territory. (Mackay, Moranbah, Somers, East Arm Darwin)

RSG have past experience in construction of wind and solar farms.

Description

Reay supply and install gas and water pipelines including ancillary infrastructure; de-watering pump and pipeline systems, supply & operation of trenching machines, terrain levellers/surface miners and other heavy mobile equipment, plant and personnel.

We provide design, earth and civil works for the clearing of drill pad and mining sites, construction of sealed and unsealed roads, easements, perimeter drains, lay down and

industry construction sites.

Supply Vermeer or Trenchor trenching equipment for the cutting of ground trenches - 6.5m deep and 1.8m wide in a single pass; Surface Miners and Terrain Levelers.

We are experienced in Teaming with other contractors should a multi-company approach be sought by the Principle/Tier One Contractor.

Associations

- > Aboriginal Enterprises in Mining, Energy and Exploration Ltd (AEMEE)
- > APIA
- > Bowen Basin Mining Community (BBMC)
- > Master Plumbers' and Mechanical Services Association of Australia (MPMSAA)
- > Queensland Building and Construction Commission (QBCC)
- > Resource Industry Network (RIN)

Major Clients

- > AngloAmerican Metallurgical Coal
- > Arrow Energy
- > BHP Mitsubishi Alliance (BMA)
- > Central Highlands Regional Council
- > CPB Contractors (Previously Leighton Holdings)
- > Glencore Coal
- > Murphy Pipe & Civil
- > Nilsen Qld Pty Ltd
- > Sunwater

Industries Served

- > Clean Energy
- > Construction & Engineering
- > Mining
- > Oil, Gas & Energy
- > Professional Services
- > Steel
- > Water

Products & Services

- > Renewables - trenching & cable laying
- > Pipeline installation
- > Trenching and surface mining
- > Gas gathering networks
- > In field infrastructure
- > Earthworks
- > Maintenance works

Facilities and Equipment

- > Backhoes
- > Bobcats
- > Compressors
- > Dozers
- > Equipment
- > Excavators
- > General Plant
- > Generators
- > Graders
- > IT Loaders
- > Poly Welding and electrofusion machines;
- > Pumps
- > Pumps
- > Vermeer Surface Miners / Terrain Levellers
- > Vermeer trenchers - variable profile cuts with capacity to 6.5 m x 1.8m single pass
- > Trucks
- > - Haul Truck
- > - Tilt Tray Truck
- > - Water Truck | Water Carts

Accreditations

- > Achilles - Supply chain management, Corporate social responsibility, HSQE Management
- > ISO9001:2015 Quality Management System (SAI Global)
- > AN/NZs 4801:2001 Health & Safety Management System

Previous Significant Projects

2018

Emerald Solar Farm
\$125,000

Client: WEA

Trenching, cable installation and general earthworks on site for solar farm

2017

Dingo Township Water Mains
\$400,000

Client: Central Highlands Regional Council

Construction of new water mains to from the water treatment plant to the racecourse and Blackall Street

2017

Moranbah North Coal Mine
\$5,000,000

Client: AngloAmerican

Surface and Ad-Hoc Civil Works:

- Install and maintain inert (floxal) lines.
- Maintain surface roads (grading, watering, and signage)
- Install and maintain surface water pipelines
- Clear and grub as required (E.g: power line easements)

2016

Caboolture Landfill Gas main extension
\$175,000

Client: Moreton Bay Regional Council

Extension of existing Landfill gas network

2017

Collinsville Solar Farm
\$1,500,000

Client: Nilsen Pty Ltd (QLD)

Trenching works for DC cable routes including assistance with electrical install through to backfill and compaction. General earthworks on site

2017

Grasstree Mine
\$5,000,000

Client: AngloAmerican

Gas drainage Contract:

- Install and maintain gas reticulation network for Grasstree Coal Mine.
- Includes main, trunkline and gathering lines for UIS, SIS and Goaf Wells.
- Examine existing network infrastructure and upgrade to Australian Gas Standards (AGA), Australian Pipeline Industry (APIA) and Gas and Petroleum Act standards.
- Install and maintain new infrastructure to AGA, APIA and Gas and Petroleum Act standards.

2017

Moranbah North Coal Mine
\$5,000,000

Client: AngloAmerican

Gas drainage Contract:

- Install and maintain gas reticulation network for Moranbah North Coal Mine. Includes main, trunk line and gathering lines for UIS, SIS, and Goaf wells.
- Examine, upgrade and install network infrastructure to Australian Gas Standards (AGA), Australian Pipeline Industry (APIA) and Gas and Petroleum Act standards.
- Install flare-stack infrastructure, ancillary equipment and floxal lines.

2015

Grosvenor Mine (Greenfield) Gas & Water Reticulation Project
\$10,000,000

Client: Anglo American

Greenfield Project CSG/LNG 2014 - 2015:
- Supply & install gas & water pipeline reticulation infrastructure including Isaac River crossing
- HDPE Pipe Size predominately 630mm & 900mm
- 20km of trenching and HDPE Pipeline installation
- Connection to Gas Plant (Stage 1 and Stage 2)

2010

Daunia Mine
\$1,000,000

Client: BHP Mitsubishi Alliance (BMA)

Supply and construct major water pipeline infrastructure including civil works:
- Supply and construct major water pipeline infrastructure including civil works.
- Design and construct water pumping facilities including form work and concrete infrastructure.

2009

Sewerage Treatment Plant Installation - Daunia Mine Stage 1
\$300,000

Client: BHP Mitsubishi Alliance

Supply and install 400 man sewerage plant & effluent pond

2008

Concrete Pump Pads - Poitrel Mine
\$300,000

Client: BHP Mitsubishi Alliance

4 x Pump Pads & installation of pumps

2013

Eagle Downs
\$500,000

Client: Sunwater

Water off-take tie-in and off-take structure:
- Excavation and tie-in to existing water main. Installation of off-take pipework and manifold structure. Cement pad with security fencing.

2011

Moranbah North Coal Seam Gas gathering lines & construction of EDL Power Station.
\$7,000,000

Client: AngloAmerican

Seam Gas/UIS and SIS gathering lines and construction of the Moranbah North EDL Power Station Consumer Billing and Regulator Gas Skids. Work is ongoing with increased demand for more gathering lines.

We complete the same activities at other underground mines across the Bowen Basin

2010

Moranbah North Coal Mine
\$1,000,000

Client: AngloAmerican

Install Gas Compressor Station and Liquid Ring Pumps:
- Site preparation and civil works; these include form works and concreting to establish the infrastructure to support and house the compressor station and liquid ring pumps.

Dam 5 - Pumps, piping and intake / discharge structures:
- Install DI/CL and PE pipework. Install pumps and pumping structures.
- Install headwalls and thrust block structures. Additional Ad-Hoc construction work as required.

2008
Electric Water Pumps
\$200,000

Client: Anglo American

Install & connection of pumps & tailings dam pipe
